

Phase I Weekend Intensive “Getting Started Workshop” May 5th, 6th, 7th, 2016 Bellevue, Washington

The "Getting Started Workshop" is a 3-day intensive educational course for people struggling with an addiction to pornography and other compulsive sexual behaviors and for their partners. This exciting course provides participants with a better understanding of sexual addiction issues and educates both partners and addicts on how to begin the journey toward peace, hope, and healing. We strongly recommend that married couples begin this process of education together; however, the workshop is also geared for single adults and for individuals whose partners are unable to attend.
